RULING ON ENTITLEMENT¹

On December 29, 2020, Paul Enstrom filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered Guillain Barré Syndrome (GBS) as a result of an influenza (“flu”) vaccination administered on January 30, 2020. Petition at ¶¶ 2, 13-14. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On August 23, 2021, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Specifically, Respondent states that medical personnel at DICP have reviewed the petition and medical records and have concluded that Petitioner suffered from GBS

following a flu vaccine within the Table time period, and there is not preponderant evidence that Petitioner's GBS was due to a factor unrelated to the vaccination. *Id.* at 4. Respondent further agrees that the claim meets the statutory severity requirements because Petitioner experienced sequelae of his GBS for more than six months. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
